MILLIONAIRES .- There lately died, at Bombay, a Parsee merchant, Sir Jamsetjee Jejeebhoy, the first native of Hindostan who was elevated to the rank of baronet, an hereditary title, yet which does not belong to represent the wholesale price. In filling small orders, highthe British peerage, as many of our contemporaries think. The Illustrated News of the World lately gave a portrait of this Indian gentleman, with a memoir. -His will has been proved in the Supreme Court of Bombay, and the whole of his property, real and personal, was sworn under eighty-five lacks of rupees \_£8,500,-000, which amounts to \$42,500,000 in American money. This is perhaps, the largest fortune ever left by any British subject, not a nobleman, for the Marquis of Westminister, who owns one half of the "West End ' of London, besides vast landed estates in the provinces, has an income of £800,000 per annum, which, taken at 30 years purchase, might be capital zed at £240,000,-000 which is equivalent to \$1,200,000.000 of our money. The late Dwarkanauth Tagore, of Calcutta, who died of a broken heart, some twelve years ago, because his fortune had dwindled down, in the commercial panic of 1847, to the amount of only ten million dollars, was worth three times as much at one time, and commenced the world with only a few rupees.

CORN MEAL, There are several merchants and bankers in London. who are respectively worth from one to four million DOMESTICS. sterling. In Manchester, in the spring of 1850, six local bankers dined together at the Albion Hotel, on a particular day, and were said to represent between £12,-000,000, equal to \$60,000,000. These be the true money kings. With us, when a man is supposed to have \$100,-000 he immediately receives the brevet title of Millionaire .- The Press.

The Presbyterian Synod will be held in Wilmington early in November. Our citizens intend doing everything in their power to make comfortable all who may favor our city with their presence. Of course there will be a large number of strangers from all parts of the State, some with one object in view-some with another. There will be a goodly number of clergy men, and more or less of all the multitude will need some article of dress. We take great pleasure in recommending the readers of the "Journal" to O. S. BALDWIN, the largest Clothing merchant in the State. He has the most complete outfitting establishment in the Southern country, and his goods are always reliable-always | Ship Stuf as represented, and sold at the lowest prices. We cheerfully recommend our friends and patrons to patronize his deservedly popular house.

SANDS' SARSAPARILLA, THE ACCUMULATING TESTIMONY Of thousands in favor of the superiority and effiacy of this preparation for the cure of Scrofula, Old Ulcers, Eruptive diseases, &c., is so conclusive, that the most despairing need no longer doubt. SINGER'S SEWING MACHINES. And a few reasons why they are prefarable to others. THE GREAT STANDARD SHUTTLE MACHINES for FAMILIES, PLANTATION and MANUFACTURERS, are

PRICE REDUCED 15th September, 1859. No. 1, formerly sold at \$:00, reduced to \$90, No. 2, formerly sold at \$125, reduced to \$100. 1. They are made of Iron throughoutand are not liable to the unsteady motion necessarily belonging to light Wooden Table Machines. They can be run at a high rate of Speed

rithout the vibration naturally consequent upon the working f light Machines. They are much STRONGER. 2. All have the CELEBRATED ELASTIC TENSION. N ther Machines have this very essential feature. Singer's Tension" is acknowledged by all who have any accurate and well defined knowledge of Machinery to be the greatest erty of Singer, and while others have appropriated largely of his patents, none have presumed, as yet, to use this "Tension." The perfect simplicity of the contrivance, together with the decided merit over every other construction is apparent to any one who will give the subject a moment's

consideration. 3. The general simplicity of construction-the perfect accuracy with which they perform every species of workthe strength and durability of contrivance, seen at a glance throughout the entire mechanism, prove them to be the ma-4. They have the perpendicular action-straight needle-

wheel-feed (together with the pressure feed, no less meri torious.) all make Singer's interlocked stitch-only perfect ed by his very ingen ous "elastic tension," where the thread does not pull from a dead weight—is less liable to spring the Needle or break—all will hem, tuck, gather and stitch, fine or coarse, in a style superior to any other Machine offered. 5. Singer's Machines never fail to justify, to the fulles extent, the public confidence. Once domiciled in a family C. Worth: with 97 bbls. spirits turpentine, 245 do. rosin, 32 | -on a Piantation-or in the Manufactory, they are classed among the essentials. No one who has them in use will do

6. They are universal in their application to practical work. With the same machine fine muslin may be stitched with the finest cotton thread, every description of tailoring work be done, leather stitching be executed, and each of these kinds of work be performed better than by any other machine, and at such a high rate of speed, as to pro-

duce 1,500 STITCHES PER MINUTE! 7. For Family and Plantation Sewing, these machines are vastly superior to any other. Fragile and delicate sewing machines, made to please the eye merely, are recommended for Family Use. They will not answer the purpose. Family sewing machines ought to be stronger than any other, as greater variety of work is required of them, and they go into less skillful hands.

other machines, and whoever buys one, knows to a certainty that it will perform the work required. 9. The SHUTTLES ARE MUCH LARGER-hold much greater tonic. Such evidences must have its effect, when coming quantity of thread than any others, and are LESS TROUBLE. All persons who may think of getting a sewing machine, should not trust implicitly to the exhibition of any machine press: as they may witness it in the hands of a skillful operat i where the machines are sold. It does not by any means follow that because you witness the operation of a sewing machine in the manufacturer's office, and see it sew well, it will be equally successful when transferred to your house, and employed upon the work you have to do. The best and thing else, is to buy that which has an established reputa-

tion. No machine can be too perfect, and it will always be found to be true economy to purchase the best. Singer's Machines cost more than others, but, in the end are found to be much the cheapest. The work of ONE DAY by hand, can be done in ONE HOUR on these Machines! BEING IN THE MANUFACTURING BUSINESS-daily testing here and North the practical working of SEWING MACHINES, we may be permitted to judge something of old; my good wife at the age of fifty-two, has used it with the relative merits of the various Machines now before the same effect. public. We use no other than SINGER'S, and we unhesitatingly say, No other will do for the general uses of Tailor,

THE EXPERIENCE OF EVERY DAY will deepen year to the uses of the FAMILY and the PLANTATION-the machine SUREST IN ITS RESULTS-the machine CER. to preserve the beauties of nature in others as well as my TAIN TO PAY A HANDSOME DAILY DIVIDEND, in the seif. the Dr. needs no enconium, nor useless puffery from the BATH, MAINE, Jan. 20, 1856. Professor O. J. Wood & Co.: GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; safest guide in the purchase of a sewing machine, or any my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found that it was proving what I had wished .-I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its its natural color, and I believe more soft and glossy than it

has been before for twenty five years. I am now sixty years The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for fasten, the conviction in the minds of intelligent and careful the last fifteen years; and am known to nearly every one thinkers of the South, that the Sewing Machines ADAPTED here and adjoining towns.
